

Amendments to the Specification:

Please replace the specification with the substitute specification that is provided in the Appendix.

The substitute specification includes no new matter. The specification has been amended to include textual material that appeared on the drawings as filed and to provide references to the replacement drawings filed herewith.

To the Specification:

Please add the following new paragraphs on page 5, at line 8:

Figure 3 is an exemplary implementation of the adaptation technique.

Figure 4 is a first embodiment of the adaptation method.

Figure 5 is an embodiment of a method for estimating the distribution.

Figure 6 is a second embodiment of the adaptation method.
